## **ST. BENEDICT EARNS GOLD FOR GOING GREEN**

**BY MR. A. ARKELL**

In our first year of participating in the Ontario Eco School program our school has earned a Gold Level Certification. We are the first secondary school in our board to receive this level of certification.

The Ontario Eco School program takes a comprehensive look at how a school promotes and embraces environmentally friendly practices. These practices include the implementation of an effective recycling program, greening projects around our school grounds, having environmentally themed lessons in different subject areas, clubs and activities to promote student involvement, work in our local community and most importantly creating a eco-friendly culture inside the school.

Our proudest achievement is our new recycling program. During the second semester we recycled over 7000 more pounds of paper and other recyclable materials than we did in first semester. We also recycled over 150 pounds of dead batteries, old cell phones and empty ink cartridges.

Our focus next year will be making our school grounds greener. This will include the possibility of creating vegetable and flower gardens for the students and community to enjoy and maybe creating an outside classroom. Contact the school if you might be interested in helping us out in this area.

## **SCHOOL COUNCIL SPEAKS OUT ON THE FRANKLIN SAGINAW ROUNDABOUT**

**BY MR. D. WITT, PRINCIPAL**

### **SHARE YOUR CONCERNS WITH REGIONAL COUNCILLORS.**

On Tuesday June 19, a delegation from St. Benedict School Council attended the Region's Planning and Works committee meeting to present their concerns regarding pedestrian safety in light of the Region's plans to proceed with the installation of the Franklin Saginaw roundabout. While the delegation was from St. Benedict, we indicated that this is not just a high school issue.

The Franklin Saginaw intersection is used heavily by pedestrians of all ages accessing businesses on four corners of the intersection as well as community resources such as the Clemens Mill Library and recreational programs at our parks.

The delegation concluded by calling on Regional Council to abandon the plans for a roundabout at the Franklin Saginaw intersection.

In May the Regional Council voted to accelerate the installation plan for roundabouts reducing it to a two year plan beginning in 2014. Cambridge City Council voted to oppose this plan but the decision ultimately rests with the Region. It is important to keep the conversation moving

forward that ALL Regional Councillors understand the concerns you have regarding the Franklin/Saginaw roundabout while there is still time to affect change.

While the Cambridge councillors support our concerns, I believe the councillors from the other parts of our region need to hear our concerns. We ask that you constructively share your concerns by emailing them to Regional Council.

To email the Regional Councillors please reference the list below:

## SUMMER SCHOOL

Summer school will be available this summer for St. Benedict students through our co-terminous board, the Waterloo Region District School Board. Make-up credit courses will be offered at Jacob Hespeler Secondary School in Cambridge and Cameron Heights Secondary School in Kitchener. A selected number of new credit courses, as well as online blended courses will be offered at Jacob Hespeler Secondary School in Cambridge and Sir John A. Macdonald Secondary School in Waterloo. Classes will begin on Wednesday, July 4th and will run until Friday, July 27th. Make-up courses are 3 hours in length, either morning or afternoon, while new credit courses are 6 hours in length, not including a 30 minute nutrition break. Make-up courses involve 54 hours of teacher instruction and are available either in a morning time slot or an afternoon time slot. It is possible for students to take 2 make-up courses if they meet the requirements. New credit courses involve a full day of teacher instruction so students may only take one new credit course during the summer. The Online Blended Model is new this summer and provides a flexible learning environment where students complete the course using a variety of online resources. Students taking on-line blended courses are required to complete the first and last modules on site, however the rest of the course work can be accessed using a computer and the internet at any place and at any time during the duration of summer school. More information regarding summer school course offerings and registration is available in the guidance office. Please note that students interested in taking a new credit course in summer school must register by June 14 while registration for make-up credits will continue until June 26. All summer school registration forms require a parent/guardian signature unless the student is over the age of 18.

# ENRICHING THE LIVES OF STUDENTS

BY MRS. D. WITTMANN

## WHY READING IS SO IMPORTANT

By Harley Hahn

Source: <http://www.harley.com/reading/why-read.html>

We all know that the best way to keep yourself physically fit is to exercise every day. Some days you do more; some days you do less. The important thing is to make physical fitness part of your daily routine.

What many people do not appreciate is that the same principle holds for mental fitness. If you want to be able to think well and to learn well, you must exercise your mind daily.

As with physical fitness, there are any number of activities you can do to keep in shape. However, over the long run, the very best way to exercise your mind is to form the habit of reading. Here is why.

Think of the difference between watching television and reading a book. Watching television is, essentially, a passive experience. You sit, you look, and you listen. Such concentration as you have is driven by outside stimulation. In fact, when you are caught up in a TV show (or even a commercial, for that matter), it is a lot more like being hypnotized than being aware and present with your thoughts.

Reading a book, on the other hand, requires active concentration. As you read, you must put in a great deal of effort to look at the words, figure out what they mean, and build up images, thoughts and opinions within your mind. Moreover, if you are reading and you stop concentrating, even for a second, everything stops. Nothing happens until you start concentrating again.

For this reason, reading regularly forces you to increase your powers of concentration, a skill whose value would be difficult to overpraise. Reading also requires you to develop your imagination and your critical thinking.

## **DIFFERENT TYPES OF READING**

I am sure, by now, you agree that reading is good for you. However, not all reading is equally productive.

In the same way that a daily 20-minute brisk run will keep you more fit than an occasional 2-minute walk, you can bless yourself with enormous, long-term benefits by reading books that stretch your skills, your imagination, your vocabulary and your powers of understanding.

We all know that some books are harder to read than others. If you try to read something that is too far beyond your ability, you will become frustrated and confused. However if you only read things that are easy—recreational reading, we might call it—you won't be able to increase your mental skills.

Recreational reading is important (and fun), but you need more. My suggestion is to develop a reading program that, day by day, will help you improve your mental capacity.

The secret of training your mind is to read books that are just a bit harder than you can manage comfortably. Over time, as your mind develops, your ability to read and to think will grow.

So I suggest that, every day, you make a point of spending at least 20 minutes reading something that challenges you. Choose a topic or story in which you have an interest, but make sure that it forces you to think. Over time, move deliberately from one book or article to another, making sure to choose new material that is just beyond your current level of comfort.

How do you tell if you are being challenged? Every now and then, as you read, ask yourself these three questions:

- Am I encountering words I don't understand?
- Am I forced to stop once in a while to think carefully about what I am reading?
- Are there times when I must reread passages in order to understand them more clearly?

## Clubs and Athletics

### **SPECIAL OLYMPICS**

**BY MRS. N. OFFAK**

On Monday, June 18, thirteen students from St. Benedict had the opportunity to attend the 10th Annual Ontario Special Olympics, held at Resurrection C.S.S. in Kitchener. With the weather reaching a high of 30°C, the students kept their cool and did remarkably well representing our school.

Some of the events that the students participated in included the pool noodle toss, standing long jump, softball throw, and the 60 meter run. Some students chose to run longer races too.

In the weeks approaching this yearly event, students trained in their Physical Education class in order to prepare themselves for their events. They learned the importance of team spirit and perseverance, and had fun doing so. A fun day was certainly had by all of the students and their spirits were not hindered by the warm weather.

Thanks to all the staff and parents who came to support our Saints and cheer them on to their victories!

### **DOCTOR WHO VIDEO CLUB**

**BY MR. D. KUKWA**

The Doctor Who Video Club meets every Friday after school. It's open to everyone who wants to tickle their geek gene by enjoying episodes from both the classic and current run of the longest running SF/fantasy series in history.

We've had an excellent turn out this year, enjoying pizza, companionship, and goodie giveaways ... all while traveling through time and space in the company of a mad man with a police box.

Who Club starts up again next year, on the first Friday of the school year, and newcomers are welcome. To paraphrase the good Doctor himself, we're serious about what we do ... just not necessarily the way we do it!

### THE YEAR IN THE ARTS...

BY MRS. J. HARRIS

It's been an outstanding year in the Arts at St. Benedict's! Congratulations to the amazing student performing and visual artists who have given so much to our community this year. These students are the "heart" of our school and should be proud of all their arts accomplishments this year. The list of events that have involved arts students is quite amazing! Did you know that our students were involved in the following at St. Benedict's in this past school year?

- School liturgies
- Coffee House
- Haunted House
- Experience the Arts (grade 8's)
- Dance Showcase
- Joseph and the Amazing Technicolour Dreamcoat
- Wintersong
- Grade 8 Parent Night
- The Complete Work of Shakespeare – Abridged (Sears Festival)
- Sears Regional Drama Festival (hosted by St. Benedict Drama Dept.)
- Bennie's Got Talent
- Grade 9 Band First Performance
- New York City 2012
- WCDSB Board-wide Coffee House
- Bennie's 50th Coffee House and Anniversary Weekend
- Music Monday
- Music at WCDSB Trustees Meeting
- Family of Schools Liturgy and Art Display
- Our Town
- Pump Up the Arts! Secondary Arts Conference
- Relay for Life
- COPA
- Grad Liturgy
- Flash Mob!
- Music Video
- Grade 12 Art Show
- Arts Banquet
- Mayor's Celebration of the Arts Cambridge
- Closing Assembly
- Many connections with grade school students (music/dance/drama)
- Anime Club
- Jazz Band
- Glee

That's quite a year!

A huge thank you to the staff who have led the students with their passion and enthusiasm for the arts. None of this would happen without their time and leadership. Thank you to the tech crew who are always so professional and reliable and always make the arts students look and sound great! Finally, a thank you to all who have supported one or many of our events this year.

Have a wonderful summer and remember to take time to listen to some great music, enjoy a visit to an art gallery, get inspired by a play, or just dance!
