Financing Post-Secondary: Scholarships, Bursaries, and OSAP

Got a 'rich uncle' with a bank full of cash waiting for you to cover your post-secondary costs? Well, I did not either. The reality is that post-secondary education is costly and takes planning, so we hope you've begun. Many students supplement their post-secondary savings through scholarships, bursaries, and loans. This article will get you pointed in the right direction to access the necessary resources for information.

Most scholarships for first year students are 'entrance' scholarships and are automatically awarded based on marks. Some awards, called bursaries, are based on financial need, but may also include other components such as volunteer service, leadership, or being associated with a service group, employer, or union. These are very individual, and you can search these out using the resources set out below.

The following sites are Canadian websites where you can register and search online for a variety of scholarships, bursaries, and contests to help fund post-secondary education.

- scholartree.ca
- scholarshipscanada.com/
- schoolfinder.com/

- disabilityawards.ca/
- <https://studentawards.com/>

The Scholarship Report is a service Guidance subscribes to at Bennies. It is a wonderful resource that you can use to search for scholarship opportunities by the month. It also provides a great deal of post-secondary information for all pathway opportunities. As the Scholarship Report is a proprietary service, access to it must be for the St. Benedict Community. In order, to view the report, go to the Scholarship page on the website and hit the link to the report. You will need a **PASSWORD** that is for St. Benedict students only. The password can be obtained through guidance.

What can you do now?

- Determine your post-secondary costs including tuition, books, room and board, travel, etc.
- Check parents' places of employment/ your place of employment or service groups for scholarships or bursaries
- Check with the schools in which you are going to apply
- Check Bennies website, through the Students Services tab, AND the Guidance Google Classroom (code – MXMOHZX)
- Create a scholarship/bursary resume where you collect all of your accomplishments, achievements, involvements, and potential barriers overcome in chronological order; you should line up references from teachers, community members and coaches who can speak to your involvement and character
- Talk seriously, with your family about your plan to fund post-secondary which may include applying for OSAP

OSAP – The Ontario Student Assistance Program (OSAP) is a financial aid program that can help you pay for college or university. Applying, for OSAP is done individually and one may be eligible for grants (free money!) and/or loans. OSAP applications will open in April or May 2023 for the 2023–2024 school year. Check out the OSAP website [OSAP](https://osap.ca/) for more information. In order to plan, you can use the [OSAP Estimator](https://osap.ca/osap-estimator/) tool for a quick guide to see if you eligible for loans or grants. This can be completed anytime.

Post-secondary education is an investment in yourself. Planning, as best as possible, will help reduce stress and strain, and is certainly more reliable than finding a 'rich uncle'.
